Digital slot racing system guarantees racing fun for up to 6 drivers at once ~ Extra wide tracks in scale 1:24 ~ True to original cars in scale 1:32 ~ Ghost- and safety car function ~ Full speed overtaking and lane changing at the push of a button ~ Customisable settings for speed and braking effects for each individual car ~ Incl. wireless controllers for freedom of movement around the race track

Package contents:

Ferrari 488 GT3 "Red Bull AF Corse, No.30"
Ferrari 488 GT3 "AlphaTauri AF Corse, No.23"
CONTROL UNIT, 2 WIRELESS speed controllers, WIRELESS receiver, WIRELESS twin charging station, double switch, straights, curves, guardrails;

Beefy bulls or mighty horsepower! The Carrera DIGITAL 132 'DTM Bull and Horse' set pits two powerful race cars from the Italian AF Corse race stable against each other. The return to the DTM series in 2021 was heralded by a supersportscar cooperation agreement between the AF Corse team and Red Bull. The New Zealand driver Liam Lawson occupies the cockpit of the Ferrari 488 GT3 'Red Bull AF Corse, No.30', while the British-Thai racer Alexander Albon and another Kiwi, Nick Cassidy, alternate at the helm of the Ferrari 488 GT3 'AlphaTauri AF Corse, No.23' in the livery of Red Bull's premium fashion brand, AlphaTauri. It's up to slotcar specialists and their handset skills to decide which long-distance automobile ultimately takes the crown around the 7.6 meters/24.93 ft. Carrera racing circuit. Drivers can change lanes and pass rivals at the push of a button, and the speed and braking power of each car can be set to the requirements of its driver. This set comes with two WIRELESS controllers for complete freedom-of-movement around the circuit.

Porsche 935 GT2 "J.Zwart, No.11" Pikes Peak, 2020
 Chevrolet Corvette C8.R "No.3"
 CONTROL UNIT , 2 cable controllers, 2 switches, straights, curves, guardrails;

Hitting the heights: Porsche versus Corvette! Carrera's 8.4-meter/27,56 ft. circuit guarantees great racing thrills with the Carrera DIGITAL 132 'Peak Performance' set, and mountain runs that hit all the heights! The Porsche and the Corvette both pack the horsepower-heavy punch needed in the hills. The performance of the silver-grey Chevrolet Corvette C8.R 'No.3' is perfectly matched to face off against the white Porsche 935 GT2 'J.Zwart, No.11'. Driven by Jeff Zwart, the Porsche is known for its achievements in the 'Pikes Peak International Hill Climb' race and the 'Race To The Clouds'. After a 5-year break, in 2020 Jeff Zwart returned to the racetrack to drive the Porsche 935 GT2 back up onto the podium. The Chevrolet Corvette C8.R 'No.3' raced for the first time in this livery in Sebring in 2021. Both cars are thrilling replicas thanks to the original reproduction license - and their front and rear lights. The 8.4-meter/27.56 ft. mountain ride on extra-wide track sections offers lane-changing opportunities, long straights, complicated bends, as well as lane shifts and overtaking at the push of a button for lots of drifting and driving fun.

Package contents:

Mercedes-AMG GT3 Evo "Sunenergy Racing, No.75"
KTM X-BOW GTX "Marek Rybníček, No.104"
Both cars with front and rear lights
EVOLUTION electronic connecting section, 2 electronic speed controllers, straights, curves, supports;

Red-hot race circuit action! The heat is on in the Carrera EVOLUTION 'Flames and Fame' set! First into the motordrome is the eye-catching Mercedes-AMG GT3 EVO 'Sunenergy1 Racing, No.75' with its roaring-flame print on the hood. The on-track adversary here is the KTM X-BOW GTX 'Marek Rybníček, No.104' in a white, blue and red livery. Marek Rybníček drove this car in hill climb races like the Ecce-Homo Sternberk. The cars are fitted with front and rear lights, and can be driven in beginners' or advanced mode. All kinds of racers age 8 years and up can show off their controller skills on the 5.3-meter/17.26 ft. long racetrack and prove they are worthy champions around this challenging Evolution slotcar race circuit!

Canine racetrack capers! The Carrera GO!!! 'PAW Patrol - Ready Race Rescue' set gives these popular four-pawed friends from the PAW Patrol team a chance to leap into some great new adventures. The 4.9 meters/16.07 ft. Carrera GO!!! car racing circuit hosts races between Chase, the speedy canine hero in an eye-catching blue police car, and Marshall, the scatter-brained dalmatian in his big, red fire engine. Together they're a guarantee for safety and order in bedrooms and playrooms around the world. Racers aged 6 years and upwards can display their control handset skills on high-speed straights, bends and a loop. Who's going to reach the next rescue scene first?

Formula 1 with Max power guarantee

The Carrera GO!!! Flying Lap set is all about speed. The long straights of the 4.3-metre/14.11 ft. track invite drivers to push their cars to the limit for victory and a place at the top of the podium on their hand-held controllers. Beware! The straights tempt drivers to reach borderline speeds, so a keen instinct is needed to avoid flying off the track in the bends. On the starting line are the Spaniard Carlos Sainz in the Ferrari SF-23 and the three-time world champion Max Verstappen in the Red Bull Racing 'RB19'. Victory is determined by Carrera racing enthusiasts aged 6 years and up.

The lightning-paced NASCAR racing experience

The Carrera GO!!! 'NASCAR 3.6' set is perfect for NASCAR enthusiasts seeking the pulsating excitement of stock car racing at home. The set includes the mega-power of two Hendrick Motorsports' NASCAR Camaro NextGen ZL1 cars: The NASCAR Camaro NextGen ZL1 'Hendrick Motorsports, William Byron, No.24' and NASCAR Camaro NextGen ZL1 'Hendrick Motorsports, Kyle Larson, No.5'. The two cars generate all kinds of action, challenges and fun as they battle for supremacy on the straights and across the intersection of this 3.6-metre race track. In the heat of the action the lap counter guarantees Carrera drivers never lose track of who's ahead.

Thrills for True Racing Fans! The Carrera GO!!! set "GT Powerplay" takes players into a fast-paced racing adventure full of thrilling duels. On the 4.9-meter track, high-speed straights and rapid corners are conquered, while the looping provides exciting challenges. At the heart of the action are two exceptional GT icons: the Ford Mustang GT3 and the Ferrari 296 GT3. Both cars are renowned for their involvement in prestigious racing series such as IMSA and the GT World Challenge. Players steer the highly detailed machines precisely along the track, experience overtaking manoeuvres up close, and feel the thrill as every millisecond counts. Thanks to the turbo buttons on the hand controller, top speeds are reached, making every moment an unforgettable experience.

Package contents:

Ford Mustang '67 Stars 'n Stripes
Chevrolet Camaro Stars 'n Stripes
Transformer, connecting section, lap counter, 2 speed controllers, straights, curves, loop, supports, guardrails;

The Thrilling Showdown of American Muscle Cars! With the Carrera GO!!! "Street Legends" set, two of the most iconic muscle cars in history take aim at the racetrack. On the 4.9-meter track, the Ford Mustang '67 Stars 'n Stripes and the Chevrolet Camaro Stars 'n Stripes go head-to-head in an exciting duel. The authentic vehicles make any racing fan's heart race and deliver an intense neck-and-neck competition, where every corner and straight is fiercely contested until the very last second. Track elements such as loops and tight corners demand the full concentration and lightning-fast reflexes of the drivers. With the hand controllers and the turbo button, every race becomes a thrilling challenge that transforms the living room into an exciting racing arena – always in pursuit of the best time.

Ferrari F12 Berlinetta
Lamborghini Huracán LP 610-4 "Police"
Transformer, connection track, 2 speed controller, lap counter, straights, curves, narrow section, junction, fly over, loop, guardrails, supports

Italian car chase! In the Carrera GO!!! 'Speed 'n Chase' set the Italian Ferrari F12 Berlinetta is involved in crazy chase action with the police in hot pursuit! The bright red racer squeezes the entire 740 hp out of the 6.3-litre V12 engine to achieve the incredible speeds needed to escape the cops, who in their 610-hp Lamborghini Huracán LP 610-4 are never far away. The 5.3 meters/17.39 ft. Carrera GO!!! racing circuit offers long straights, a junction and a thrilling loop to separate the best drivers of 6 years and up from their rivals in the rear-view mirror! But watch out - the junction is an accident waiting to happen!

Spider-Man Speed Shifter (BLUE)
Spider-Man Speed Shifter (BLACK)
Transformer, connection track, 2 speed controller, straights, curves, narrow section, looping, guardrails, supports

In the Carrera GO!!! set 'Spider Racing,' the Spider-Man Speed Shifter in red competes against his opponent in black - ensuring a challenging duel on the 4.9-meter/16.07 ft. track. The looping adds the necessary dose of action; it's full throttle on the straightaways, and the challenging curves test the drivers' skills to the fullest. In addition, young racers aged 6 and up must assert themselves to be the first to master the demanding narrow passage and stay ahead in the duel. For an extra burst of speed, the included hand controllers are equipped with Turbo Boost - but only those who keep their nerves will emerge as the ultimate winners in the end.

Canine racetrack capers! The Carrera GO!!! (BO) 'PAW Patrol - Ready Race Rescue' set gives these popular four-pawed friends from the PAW Patrol team a chance to leap into some great new adventures. The 4.3 meters/14.1 ft. Carrera GO!!! car racing circuit hosts races between Chase, the speedy canine hero in an eye-catching blue police car, and Marshall, the scatter-brained dalmatian in his big, red fire engine. Together they're a guarantee for safety and order in bedrooms and playrooms around the world. The battery operated set is ideal for adventures away from home. Racers aged 5 years and upwards can display their control handset skills on high-speed straights, bends and a jump ramp. Who's going to reach the next rescue scene first?

Two red-hot racers and tons of fun! Carrera FIRST launches the very youngest drivers into a fantastic world of racing. The Carrera FIRST 'Disney-Pixar Cars - Race of Friends' set gives apprentice racing drivers racing thrills with the heroes of the Disney-Pixar Cars films. Lightning McQueen and his coach Cruz Ramirez have tons of fun together on the sky-blue figure eight track. On top of the colourful cut-out decorative elements, the two loop bends guarantee lots of fun. The circuit is designed for kids with control handsets made especially for drivers aged 3 years and upwards, and can be space-savily stored when not in use.

Fun for little Spidey fans

Peter Parker, Spidey for short, joins his buddy Miles Morales – or Spin – from the 'Spidey and his Super Friends' series and really steps on the gas around the 2.9-metre/9.51 ft. track. The battery-operated Carrera FIRST racing track presents young racing drivers with major challenges - including straights, bends, narrow sections – and tons of fun! Flip-over elements feature eye-catching Spidey designs out on the bright blue track. The playing experience is rounded off with decorative elements featuring motifs from the series.

The Carrera FIRST set "Let's Go" for toddlers aged 3 and up ensures the timely delivery of dinner – thanks to Heeler pup Bluey from the TV series of the same name and her younger sister Bingo, who zoom around the 2.9-meter track in no time. With decorative elements that reflect the setting of the series, the kids will immerse themselves in the world of the Heeler family while playing. Long straights, tricky curves, and a fun flip element provide endless playtime fun. The ergonomic controllers, specially designed for little hands, and the battery-operated track, which is easy to set up and take down, ensure hours of entertainment and continue to delight young racing fans again and again.

PAW Patrol - Off to the Rescue Mission!

With the Carrera FIRST set "PAW Patrol - On the Double", little heroes aged 3 and up can experience exciting adventures with Chase and Rubble! Just like in the popular TV series, the brave pups embark on their missions, showing what true teamwork is all about. The child-friendly track brings tons of fun to the kids' room with tight spots for funny collisions and flip elements for unexpected twists. Themed decorative elements bring the adventure world of Adventure Bay to life, making the play experience truly immersive. This set ensures hours of fun and lets the little pilots dive back into the world of PAW Patrol time and time again.

Dimensions (LxWxH in cm): 11,0 x 46,0 x 50,0
Weight (lbs/kg): 5,2 / 2,4
Country of origin: China
Age: 3+

Product information:

Track length (ft) / (m): 9,09 / 2,77
Size (LxW in ft / cm): 3.28 x 1.48 / 100 x 45
Number of batteries: 4
Kind of battery: AA Batteries
Batteries included: No

Cool CARRERA racing action in a practical carrying case ~ set up in a flash. ~ the race can start after a few seconds ~ integrated lap counter for exciting duels ~ power supply via 4 x AA batteries or USB-C connection, perfect to go ~ cars in 1:50 scale ~ Electronically regulated controllers, specifically designed for small kids

Package contents:

1 x Lightning McQueen, 1 x Dinoco Cruz Ramirez, 2 x hand controllers, built-in lap counter, decorative elements, USB-C power connection, battery-operated, (4 x AA batteries required - NOT INCL.)

With the new Carrera Speed Arena in Disney Pixar Cars design, children preschool age and up can experience the adventures of their favorite characters from the popular Cars movies up close. In a handy carrying case and with no setup required, the set is ready to go anywhere – whether at home, on vacation, or at a friend's house. Simply unfold, grab the ergonomic hand controllers, and off you go: Lightning McQueen and Cruz Ramirez race across the track just like in the movie, delivering exciting duels. The authentic vehicle designs and the sturdy, compact track bring the world of Radiator Springs to life – perfect for thrilling races and imaginative adventures. The built-in lap counter ensures exciting head-to-head races, while the set, thanks to battery operation or USB-C connection, is always ready for action anywhere. With Lightning and Cruz, children can recreate their favorite scenes from the Cars movies or invent new adventures on the track. For little racers and big Cars fans: The Disney Pixar Cars Speed Arena brings movie magic and racing fun together – anytime, anywhere!

ENJOY FULL ACTION AND THRILLING CAR RACES!!

**ON YOUR MARKS, GET READY, GO!
LET THE RACE BEGIN ...**

Full racing action is guaranteed with the cool Pull & Speed racing cars. All types of vehicles, be it racing cars, police cars or a vehicle from the Mario Kart™ racer series, will make the heart of any little race driver beat somewhat faster. The strong pull-back engine makes it possible: simply pull the cars back, let them go and in an instant the vehicle takes up the race in full speed. Due to the stable plastic chassis collisions and crashes do not constitute a problem and thus the vehicles are also suitable for children ages 3 and up. The small and precise replicas, at a scale of 1:43, are in no way inferior to their "big brothers". Due to the original licenses the models fascinate by their perfect scale and detailed execution. Pull & Speed offers great driving fun for all ages.

- ★ Detailed vehicles with original licenses in scale 1:43
- ★ Pullback motor feature
- ★ Forward freewheeling

Pure Rallyfeeling! Thanks to an original licence from Red Bull, the Peugeot 2008 DKR 16 is a faithfully detailed representation of the winning vehicle from 2016's Rallye Dakar, including glowing headlamps and brake lights. To make sure that the world's toughest rally can also start in your garden, poor weather conditions hold no fear for this little powerhouse: it's also splashproof so that wet tracks are not a problem.

EXTRA FAST 1A USB charging cable *

Package contents:

Car and Controller * READY TO RUN incl. rechargeable battery, 1A USB charging cable and controller batteries

Up to 40 minutes, your jeep is ready to tow or do a few laps off-road. It can reach speeds of up to 20 km/h. The hi-tech battery is designed for particularly high performance, as the winch and the drive of the powerful vehicle require a lot of power. If you do not drive the jeep or have idle times, it switches off automatically thanks to auto-off so as not to consume unnecessary resources and have energy left over for later operations and trips. Thanks to "Ready to Run", you can get started with the 1:16 scale model with digital proportional control immediately after unpacking! The jeep is therefore immediately ready for operation and now only needs one driver!

US power for offroad action! The Ford F-150 Raptor is a cult offroader with a fresh Carrera RC look. The bodywork and finish are both pleasures to the eye, the casing being light and flexible, and yet easily robust enough for outdoor action. The Ford F-150 Raptor navigates the toughest terrain at top speeds of up to 25 km/h - 15.5 mph thanks to the integration of digital proportional driving and steering controls.

The legendary Ford Bronco is back with Carrera RC! This US American offroad dream has been reawakened by Carrera RC, and its adventures can now be relived. From the 1960s on the sharp and powerful-looking Ford Bronco was the king of the roads, and has returned in a new version introduced in 2020. The retro design work features big, round headlamps, sharp, shapely coachwork and large tyres, turning heads everywhere!

RC FLIPOVER - STUNT CAR * LED LIGHTS * FULL-FUNCTION DIFFERENTIAL STEERING for precise racing fun *
 BREATHTAKING 360° Flip Action STUNTS * 360° SPINNING MODE * incl. longlife Li-ion rechargeable battery * incl. EXTRA FAST
 0,5A USB charging cable * pneumatic tires

Package contents:

Car and Controller * READY TO RUN incl. rechargeable battery, 0,5A USB charging cable and controller batteries (2x AAA)

The Supercross is at home on rough terrain and has two differently-sized tyres on each axle. The two axles can be positioned to form a V Super Spinning Mode, opening up a whole new range of options. This car can do a 360 around its own axis. The only limits for the stunt racer are in the imagination. No wish is left unfulfilled at top speeds of up to 6 km/h. Stunt performances can last up to 15 minutes before the included 3.7 V - 500 mAh Li-Ion battery requires a short 60-minute recharging break. The Supercross is Ready-to-Run, like all Carrera RC cars, and jumps into the action straight from the box.

Up to 20 km/h top speed ensure your place on the podium in the race with your friends. Thanks to the 2.4 GHz technology, you can compete against up to 16 opponents to convince them of your skills. Your competitors will guess at the sight of your green drift king how they will fare in the race. The hot duels last up to 20 minutes thanks to the 6.4 V - 700 mAh LiFePo4 battery. In these minutes our drift car goes full throttle! If the racing fun is over and your car needs to be "refueled", it needs a short break of 80 minutes until it is fully operational again. After that, the drift car can be used again in the race to win against its opponents!

Package contents:

Car and Controller * READY TO RUN incl. rechargeable battery, 1A USB charging cable and controller batteries

Visually, your Dino Car stands out in every situation: printed with T-Rex motifs and a punky jagged grille in red, it lets its opponents know who is ahead on every terrain. The powerhouse in scale 1:16 is of course "Ready to Run", which means that the Dino is ready to be driven immediately after unpacking. So the action can start right away. You can ride the Dino for up to 30 minutes until the battery is empty. Equipped with 2.4 GHz technology and differential control, the Dino can drive up to 15 km/h, whether on asphalt, stone, gravel or in the meadow. After driving the dinosaur, he needs about 80 minutes to take a breather while hanging from the charging station. Then it is fully charged again and the wild ride on any surface can continue!

The popular Carrera RC Turnator family now has a new member! The new Mini Turnator 2.0 joins the cult siblings to thrill spectators with major stunts and action in tight spots, illuminated by LED lights that focus stares on tricks performed in pitch black bedrooms and after sundown. Like his older brothers, the Carrera RC Mini Turnator 2.0, fitted with two axles that can be rotated toward each other, is a genuine stunt pro.

An impressive acrobat! This daredevil movement artist pulls in admiring glances from its audience. Thanks to its 360° flip-action function, it not only moves forwards and backwards, but also flips over and rotates in circles at an incredible speed. In terms of looks, the Acrobat impresses with its red design and extraordinary construction, which enables spectacular stunts and absolutely incomparable driving fun! This remote-controlled car inspires all right from the start!
