PADDYWAX™

Repurpose your candle!

To remove any residual wax from the candle,
we recommend this method:

Place the used candle container in the freezer overnight.

Once frozen, lightly tap the container on a soft surface
to loosen the wax enough to pop out.

Using a utensil and a soft cloth, remove any remaining wax, wick, or glue dot.
Give the container a good wash and it is now ready to *re-use*!
